💼 PROFESSIONAL EXPERIENCE

ICTVision, Internee as Web Developer
June 2022 – August 2022 | Multan, Pakistan
My role was Transforming Figma designs to Responsive UserFirendly Interfaces and developing Interactive real world Projects Utilizing javascript knowledge to make websites Functional

SandyApps,
Internee Frontend Web Developer
May 2023 – present | Multan, Pakistan
Focuses on honing my React.js skills by working on small to medium-sized projects or contributing to ongoing projects. Learn how to efficiently utilize React.js features, such as state management, event handling, and component lifecycle methods, to create interactive and responsive user interfaces. As a frontend React developer is responsible for writing clean and maintainable code, adhering to industry best practices and coding standards. Additionally collaborates with the backend development team to integrate frontend components with the backend APIs or services, ensuring smooth communication and data exchange between the user interface and the server.

🌐 LANGUAGES

Urdu
High Proficient in speaking and Writing

English
Good Proficiency , Conversational

TravelNest,
A MERN Stack tour Booking App
It was Full Stack Tour Booing web app developed by me. My Main focous was to learn the advanced react concept in this project . I learnt how to connect Database in in our project and how we make routes in express and working with real api's . It was an amazing project for me , I learnt lot of things in this project.

Shopping Cart, E-Commerce shopping cart
Develop an e-commerce shopping cart where users can browse products, add them to the cart, and proceed to checkout. Use Redux to manage the state of the cart, including adding and removing items, updating quantities, and calculating the total price.
